

POLEPALLI MANJUNATH

Software Developer — Full-Stack | Cloud (Azure) | AI-Enabled Applications | CRM Solutions Developer

Lowell, MA • +1 978-818-4622 • venkat01121968@gmail.com • [linkedin.com/in/polepalli-manjunath](https://www.linkedin.com/in/polepalli-manjunath)

SUMMARY

Software Engineer with 2+ years of experience building and customizing enterprise CRM and ERP solutions using Python, Odoo, PostgreSQL, JavaScript, XML, and REST APIs. Experienced in developing scalable backend modules, automating business workflows, optimizing database performance, and integrating enterprise applications.

Enthusiastic about designing reliable software solutions and completed the M.S. in Computer Science while expanding cloud expertise through Microsoft Azure (AZ-900).

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, SQL, HTML5, CSS3, XML

CRM & Enterprise: Odoo CRM, CRM Customization, Lead Management, Sales Pipeline Automation, Customer Lifecycle Management, Workflow Automation, Business Process Automation

Frameworks & Libraries: React, Node.js, Bootstrap, jQuery, Odoo

Databases: PostgreSQL, MySQL

Cloud & DevOps: Linux, Git/Gitea, REST APIs, system integration, CI/CD fundamentals; Microsoft Azure [AZ-900 in progress]

AI / Data: Python data libraries (Pandas, NumPy), LLM / OpenAI API integration

Tools & Practices: Visual Studio Code, PyCharm, Agile/Scrum, testing & debugging, performance tuning

Methodologies: Agile, Scrum, SDLC, Testing, Debugging, Performance Optimization

EXPERIENCE

Software Developer | SWOT (Web/ERP Solutions for Manufacturing) April 2022 – Aug 2024

- Developed and maintained 20+ custom Odoo CRM and ERP modules using Python, Odoo ORM, PostgreSQL, XML, JavaScript, and QWeb, extending core models through model inheritance, creating custom business objects, designing XML views, menus, security groups, access control lists (ACLs), and automated workflows to support CRM, accounting, inventory, procurement, and sales operations.
- Engineered scalable backend solutions by implementing ORM models, computed fields, constraints, server actions, scheduled (cron) jobs, transient models, and reusable business logic, while developing dynamic accounting modules including GST, TDS, TCS, and Landing Cost, reducing manual financial operations by 70% and improving transaction accuracy.
- Designed and optimized REST API integrations, JSON-based data exchange, PostgreSQL queries, and database indexing to synchronize data with external business applications, improve report execution time by 50%, and eliminate duplicate records across enterprise systems.
- Built QWeb PDF reports, SQL-based analytical reports, custom dashboards, and wizard-driven reporting modules, enabling automated document generation and real-time business insights for finance, sales, and operations teams while reducing report preparation time by 55%.
- Participated in the complete Software Development Life Cycle (SDLC) by analyzing business requirements, estimating development effort, implementing client-specific customizations, performing debugging and root-cause analysis, conducting module testing, supporting deployments, and resolving production issues within Agile/Scrum teams while maintaining 98%+ application availability.

Web Developer Intern | Ventro Tech Consulting Pvt. Ltd. Aug 2021 – Feb 2022

- Developed responsive and cross-browser compatible web applications using HTML5, CSS3, JavaScript, Bootstrap, jQuery, XML, and Git, implementing reusable UI components and interactive client-side functionality that improved development efficiency by 25%.
- Collaborated with senior developers in an Agile environment to integrate front-end interfaces with backend services, troubleshoot application defects, optimize page performance, and deliver production-ready features within sprint timelines.
- Performed browser compatibility testing, debugging, and UI optimization across multiple client projects, improving application responsiveness and enhancing overall user experience.

EDUCATION

Master of Science in Computer Science

Rivier University, Nashua, NH

2024 – 2026

Bachelor of Technology in Mechanical Engineering

Malla Reddy Engineering College, Hyderabad, India

2018 – 2022

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals (AZ-900) – In Progress
- Full Stack Web Development — KodNest
- Java & Python — Coursera
- HTML & CSS — Coursera

LEADERSHIP & ACTIVITIES

- Vice-Chairperson, SAE Club, MREC — led a 20-member team, ran 2+ annual events, and grew membership by 50%.
- Team Lead, E-Baja EV (international competition) — led a 15-member team and secured Red Bull and Brembo sponsorships.
- Team Lead, Street Cause MREC — planned and executed 3 fundraising and 9 social-impact projects.
